

CAV-3200

Portable Multi-Purpose
Card Reader

With proliferation of fake ID's and underage drinking and smoking, merchants can no longer rely on visual verification alone. Age verification is no longer a luxury but rather a necessity and standard business practice. The ViAge ID reader eliminates the guesswork, streamlines transaction time, improves employee efficiency, and really gets the law on your side.

Use our 30-day money back guarantee and find out first hand why the ViAge is preferred by law enforcement and customers nationwide.
