CAV-3200
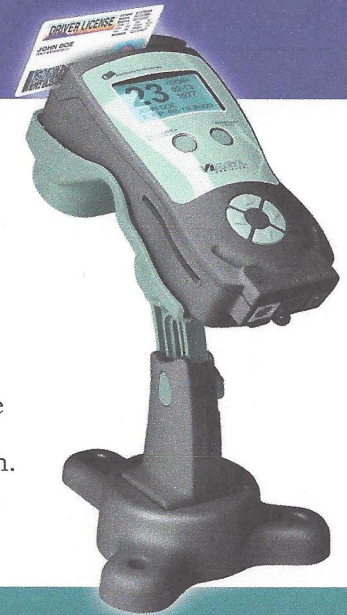

ID scanner for Age Verification

While most everyone takes precautions when checking identification, it only takes one slip-up, one false I.D. and you could be facing penalties and liability exposure that severely impact operations and profits.

The CAV-3200 is simply the most durable, affordable and dummy-proof protection against ID fraud and under age sales to minors. With over a decade proven success in the market, let the CAV-3200 be your work horse for years to come.

The CAV-3200 is a comprehensive Age and ID verification solution that offers all-in-one scanning with speed and accuracy. It can be used alone as an Age Verification device or function as an integral part of the POS system for UPC scanning and Age Verification. The CAV-3200 can be pre-configured to work with Dresser Wayne, Gilbarco, and Ruby VeriFone POS system through Plug-n-Play out of the box implementation.
