

1528L 15" LCD Medical Desktop Touchmonitor

Cost-effective LCD touchmonitor for patient monitoring and critical care

Applications

- Critical care
- Nurse station
- Dental Imaging
- Patient monitoring
- Digital radiography
- Paperless charting
- Computer-aided therapy
- Electronic medical records
- Patient self check-in and registration

Elo's 1528L 15" LCD Medical Desktop touchmonitor delivers cost-effective solutions for critical care and patient-centric professionals in the medical and healthcare markets. This compact touch monitor is "designed for touch" with Elo's proven expertise and reliability built in from the start.

The 1528L 15" LCD medical desktop touchmonitor is available with the proven popularity of AccuTouch five-wire resistive touch technology, plus serial and USB touch interfaces. The monitor is factory sealed against dust, dirt, and liquid splashes. The 1528L can be used in a wide variety of environments because it registers input from a finger, gloved hand or soft stylus with a fast and accurate response. Simplified worldwide approvals cover the entire monitor that is designed, built, serviced, and supported by Elo, a true single source supplier.

Benefits

- Developed to meet the needs of patient-centric and critical care professionals
- Elo quality at a competitive price point
- "Designed for touch" from the ground up: stable tilt base; cables hidden from view; controls on side rather than front; lockout function for public use
- Designed, built, serviced, and supported by Elo
- Space-saving, economical, flexible, and reliable
- Available with Elo's AccuTouch five-wire resistive touch technology
- Functions as desktop or wall-mountable; VESA mount option
- Sealed against dust, dirt, and splashes
- Serial and USB connectivity
- Simplified worldwide agency approvals
- Three-year standard warranty in the U.S.

1528L 15" LCD Medical Touchmonitor
