Leasing equipment has never been easier! Just follow these simple steps:

- Find the appropriate equipment cost.
- Match the cost to the corresponding monthly payment.
- Take 10% of equipment cost as your first monthly payment.

Example:
 $\$5,000 \times 10\% = \500.00

- To calculate your monthly payment, divide equipment cost by the remaining months (no interest added to the 12 months).

Example:
 $\$5,000 \div 12 \text{ months} = \416.66
per month

- After 12 months you own the equipment for \$1.00.
